

# ANB Q2 Mobile App

## Mobile app

1. Enter Login ID and Password.
  - a. Tap Remember me to save your credentials.
  - b. Forgot password- enter Login ID, select contact method to receive Secure Access Code.
  - c. Reset password.

## 2. Login using Touch ID

### a. Click enroll now

### b. Enter login credentials to set up Touch ID, click authorize.

Touch ID ×

What is this feature?

This feature lets you validate your Mobile Banking session using your fingerprint instead of a login ID and password. With this feature enabled, you will be prompted to place your registered fingerprint on the fingerprint scanner to login.

Feature Enablement

Fingerprint authentication is only available for users with a fingerprint scanner enabled device. In the event that you choose to disable the feature on your mobile device, your account will revert back to requiring a login ID and password.

Touch ID ×

Your recent password change requires Touch ID to be reset.

Please enter your credentials to re-enable.

## 3. Login using Passcode- 4 digit code

Passcode ×

What is this feature?

This feature allows you the option to enter a passcode for authenticating into your Mobile Banking session instead of your login ID and password.

By opting into this optional feature, you will be prompted to enter a passcode that you will create, which you will be able to use upon the next start of the application.

Security Measures

It is suggested that you choose a passcode that is not your ATM or Debit Card PIN.

For further security, we suggest taking advantage of any additional password or lock features your device may offer.

Enable Feature

This feature will be enabled only on the device you register your passcode with. It is recommended that

Passcode ×

Enter your login ID and password to confirm activation of Passcode.

**4. The home screen and menu options are the same as the full website.**

5. Under the settings tab, Security Preferences will allow you to change your password, change your Login ID, edit your email address or phone number for delivery of the Secure Access Code, and enable the Passcode and Touch ID options.

6. Within the Mobile app, you are able to utilize the Deposit Check feature.
- Tap Deposit Check
  - Select the account to which you will deposit and enter the amount
  - Tap Capture Image
  - Line up the front image of the check, click the camera. Line up the back image of the check, click the camera.
    - If the images of the check are not clear you can retake the picture of the front or back of the check.
    - If the images are clear, tap Submit Deposit. (You will get a confirmation stating the deposit was successfully submitted.)
